## New trucks powered by Compressed Natural Gas (CNG). Coming soon to a neighborhood near you!

Pride has received our first two compressed natural gas (CNG) trucks that will start servicing residential neighborhoods. As you can see in the picture below, the trucks look the same as our standard diesel automated trucks except for the CNG fuel tanks located on top of the truck. These new vehicles are operated by a modified gasoline engine fueled by NW Natural Gas rather than by diesel engines, as our existing fleet is.

The US Department of Energy estimates that CNG reduces particulate matter emissions by 86%, carbon monoxide emissions by 80%, nitrogen oxide emissions by up to 32%, and greenhouse emissions by 25%. As an additional benefit, CNG trucks run 50% quieter than diesel trucks. These trucks will be quieter and will help keep the air in your neighborhoods cleaner.

Pride is also putting in a CNG fueling station at our facility in Sherwood in order to fuel these trucks. This fueling station will bring natural gas in and fuel the trucks on a slow-fill system overnight. We have 3 more CNG trucks that will be arriving in 2012!

## Thank You for your food donations!

Throughout the year Pride Disposal has collected food for the Oregon Food Bank. The food was collected at our recycling events, as well as here in our office from employees and customers. All food that was collected was alternately sent to Tigard St. Vincent de Paul and Sherwood Helping Hands. Both organizations are Washington County divisions of the Oregon Food Bank.

This food helped feed many families in Washington County. Thank you for your generous contributions throughout the year.

Please continue to help out. If you are coming to our office to pay your bill, use the recycling depot, or would just like a close place to drop off a donation, please consider bringing some 00370738 non-perishable food items to donate. Every little bit helps. Thank you again.

### Common Recycling Contaminants

#### (Things NOT to include)

- Plastic bags
- Other film plastics such as bubble wrap, shrink-wrap.
- Styrofoam
- Packing peanuts
- Toilet paper, napkins, or tissues
- Plastic plates, utensils, cups, etc.

### Common Yard Debris Contaminants

#### (Things NOT to include)

- Plastic bags
- Dirt, sod, rocks
- Food waste
- Stumps
- Processed wood, lumber
- Animal waste
- Ashes
- Garbage

This list is not inclusive of all things not to include. These are some of the more common mistakes that are made.

# DOCUMENT DESTRUCTION

Start 2012 off right! Shred old documents and paperwork securely.

Pride Recycling Company offers shredding services at your home or business, with one time, occasional, or regular shredding. Secure drop off is also available at the Pride Depot at 13910 SW Tualatin-Sherwood Rd in Sherwood (access is from Pride Disposal's driveway). Whether at your home or place of business, disposing of intact confidential information is a risk. Contact us to have it shredded and protect yourself and/or your customers from this risk.

Please call Pride Recycling Company at 503-625-0725 for pricing and other information on services available. You can also visit our website: [www.priderecycling.com](http://www.priderecycling.com).
